# Why we need to prepare students for a Global Economy?

- The world supply of highly skilled workers is making it almost impossible for Americans to compete globally.
  - Preparing students for high skilled jobs that require post-secondary education is a requirement and a must for our survival in the 21<sup>st</sup> Century.
- 

# 21<sup>st</sup> Century High Skilled Students Need:

- to exceed top academic performance
- to be creative and innovative
- to learn very quickly
- to be able to multitask
- to be technologically savvy
- to be globally competent
- to be fluent in two or more languages
